Cc: Thomas C McDonough <thomas.mcdonough@redbutte.utah.edu>

Hi Peter,

I had a meeting today with Thomas at Red Butte Garden and they just received funding this year from the BLM to collect seeds and assess reproductive success from the BLM for the 3 candidate plants in the San Francisco Mts.

He is getting a late start and will need to obtain permission from the private landowners to do this work. Might you have their contact information?

Many thanks,

Jena
